

# Under Cabinet Range Hoods

## DELUXE QUIET

### FEATURES

- **Quiet, energy efficient operation**
- Included, easily removable aluminum grease filters capture grease and debris.
- **Included** 26 watt high efficacy fluorescent lamp (about as bright as a 100 watt incandescent bulb) illuminates the cooking surface, allowing the hood to be used to comply with California Title 24 requirements. Also features a 4 watt night light (bulb not included).
- Can be ducted either horizontally or vertically with the included duct collar and back draft damper (ducting available separately). Convertible to ductless operation with the addition of model CF-01 charcoal odor filters (available separately).  
The ENERGY STAR Program for Residential Ventilating Fans has no provision for qualification of ductless range hoods (recirculating not ventilating), as a result the ENERGY STAR program applies to ducted range hoods only.
- **Suggested Accessories:** Back Splash, Roof or Wall Cap

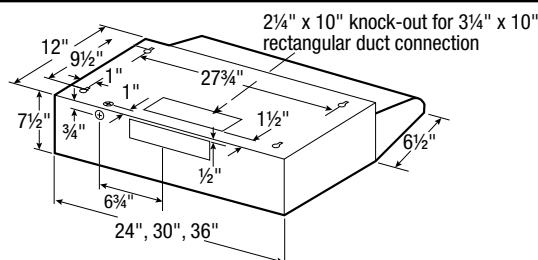

### DELUXE QUIET RANGE HOODS
