

Dimension Specification

Atlantis Wide Spread

Model:
ATWSxxASL

Before Your Installation

- Read all instructions carefully.
- Assemble all tools.
- Turn off main water supply before removing old faucet and fixtures.
- Clean surface before installing new faucet.
- Insert a cloth or stopper into drain to prevent small parts from getting lost.
- HB recommends that when cleaning you HB faucet to only use soap and warm water. The use of any chemical substances will void finish warranty.

Tips for Successful Installations

- Use joint compound or Teflon® tape on all threaded connections to prevent leaks.
- Use a soft cloth to protect the faucet's finish when using a wrench, pliers or other tools that could scratch the faucet.
- Tighten all hose connections by hand. Do not over tighten.
- Before turning main water supply back on, open several faucets around the house to prevent pressure from building up. Remove aerator from faucet before turning on water. Flush drain for several minutes before replacing aerator. DO NOT use joint compound or Teflon® tape to reconnect aerator.
- DO NOT use "plumbers putty" or any oil based sealant. HB recommends silicon caulking to be use to seal drain flange and other parts.
- If you experience problems with the installation consult a professional plumber.
